

ANNUAL DECLARATION OF INTERESTS (ADoI)

(Please note that high quality of scientific expertise is by nature based on prior experience and that therefore having an interest does not necessarily mean having a conflict of interest)

Name: JAQUES MIRET, Josep Anton

Title: Prof.

Profession: University full professor

Current EFSA involvements: Member-PLH Panel 2015-2018 (PLH), Member-Eotetranychus lewisi risk assessment (EFSA-Q-2015-00270) (PLH), Member-WG Dir 2000 29 Methods (PLH), Hearing Expert-WG NTA + In Soil Opinion (PPR)

Nature of Activities	Period	Organisation	Subject matter
I. Economic interest			NO INTEREST
II. Member of a managing entity or equivalent structure	08/2012 - now	-Name: International Organization for Biological and Integrated Control (IOBC-global), Zurich, Switzerland	I was elected in 2012 for a 4-year term as treasurer of IOBC-global. This is a non-profit organization that promotes environmentally safe methods of pest and disease control. It is a scientific organization of people working on different aspects of biological and integrated pest control.
III. Member of a scientific advisory entity	01/2014 - 09/2014	-Name: EFSA, European Food Safety Authority, Italy, Parma	Member of the WG Aculops fuchsiae
	01/2013 - 09/2013	-Name: EFSA, European Food Safety Authority, Italy, Parma	Member - WG Eutetranychus orientalis pest risk assessment (PLH)

IV. Employment	03/2000 - now	-Name: Universitat Jaume I, Spain, Castelló de la Plana	<p>The permanent position hold at 'Universitat Jaume I' includes both teaching and research activities. Teaching activities are related to crop protection subjects included in graduate (Agricultural Engineering) and postgraduate (master and PhD) courses in Plant Production, such as Applied Entomology, Crop Protection, IPM (integrated pest management) programs. Research interests are focused on the following topics: (1) biology, ecology and population dynamics of insects and mites of economic importance, especially in citrus and palms, (2) tactics, systems and strategies of IPM of insects and mites, (3) use of biological control as the primary tactic to manage populations of significant pests.</p> <p>In addition, extension activities are provided voluntarily in pest identification and control recommendations to the agricultural community.</p> <p>Universitat Jaume I has a Research Institute of Pesticides and Water (IUPA). A working branch of this institute is the Laboratory of Pesticide Residue Analysis (LARP), created in 2004. LARP was designated by the Spanish Ministry of Agriculture (MAGRAMA) as the Laboratory of Reference in Spain for pesticide residue analysis for Good Laboratory Practice (GLP) Studies related to the establishment of maximum residue levels. I am not a member of this institute which is mainly devoted to the development of new analytical methods for the quantitative analyses of pesticide residues in different substrates.</p>
V. Occasional consultancy			NO INTEREST
VI. Research funding			NO INTEREST
VII. Intellectual property rights			NO INTEREST
VIII. Other memberships or affiliations			NO INTEREST
IX. Other relevant interest	10/2014 - now	-Name: Associate Editor of the scientific journal BioControl,	BioControl is the official journal of the International Organization for Biological Control (IOBC). It includes original papers on basic and applied research in all aspects of biological control of invertebrate, vertebrate and weed pests, and plant diseases.
	01/2008 - now	-Name: European Plant Protection Organization (EPPO)- International Organization for Biological and Integrated Control (IOBC) Joint Panel "Safe use of biological control agents"	I was appointed as Associate Editor in October 2014.
	05/2014 - 09/2015	-Name: FORMAS, Swedish Research Council	I take part in the meetings that the Joint Panel celebrates almost every year since its creation in 2008 as a representative of IOBC-WPRS (International Organization for Biological Control-Western Palearctic Regional Section). As such, I revise EPPO standards related to safe use of biological control (Standard PM6) and update of the list of biological control agents widely used in the EPPO region [Standard PM 6/3]. I became the convener of the IOBC-WPRS Commission on that matter in October 2013.
			I was appointed by FORMAS to evaluate research proposals submitted to this Swedish public funding agency under the "Natural Resources" topic in 2014 and again in 2015.

	03/2010 - 12/2013	-Name: ANEP, Agencia Nacional de Evaluación y Prospectiva, Ministerio de Economía y Competitividad, Madrid, Spain	Evaluation of research proposals, mostly public but also from private companies seeking advice from ANEP (National Evaluation and Foresight Agency). ANEP is part of the Directorate General for Research and Management of the National R&D + Innovation Plan, within the State Department of Research of the Ministry of Economy and Competitiveness. As a member of ANEP, I was in charge of seeking peer-review of research proposals dealing with crop protection by experts in the corresponding field (virologists, ecologists, chemists, entomologists, etc.). I am the responsible of presenting the scientific evaluation (based on the evaluations received from experts) to the ministerial commission that eventually decides on the funding of these proposals taking into account my reports but also additional reports received from other experts. I have no right to vote.
X. Interests of close family members			NO INTEREST

I hereby declare that I have read both the Guidance Document on Declarations of Interests and the Procedure for identifying and handling potential conflict of interests and that the above Declaration of Interests is complete.
